

Burgos in | recessed spotlight | round | warm white | different colours | OutdoorCore+

Product Images

Short Description

The Cree LED Burgos recessed spot has an output of 3 watts and is dimmable. The light color of this spot is warm white (2700k).

Description

The Cree LED Burgos recessed spot is a widely applicable LED recessed spot. You can place this spot in every room in your home. This is because the Burgos spot has the IP-65 value. This means that the spot is dustproof and resistant to splash and spray water.

The Burgos replaces the old 25-watt halogen lamps with 3 watts. So if you are looking for an energy-efficient and environmentally friendly spot, the Burgos recessed spot is the right one.

An LED transformer is supplied as standard with the stylish Burgos recessed spot. It converts the incoming 230 volts to a safe low voltage. You must mount the transformer on the power cable in the ceiling and then click the Burgos spotlight onto the transformer.

The Burgos recessed spotlight is dimmable and can therefore be dimmed with a LED rotary dimmer. You must order the LED dimmer separately from our webshop and it is not supplied as standard. This also applies to the hole saw (size 35 mm), with which you can easily saw holes that fit exactly in this Burgos spotlight.

Tip: When mounting this spot, disconnect the power to be sure.

Are you interested in the Burgos LED spotlight? Then don't forget to order a hole saw or rotary dimmer. If you need more product information, see the product specifications for the Burgos spotlight. Would you like to speak to one of our LED specialists? Then please contact us.

The Burgos replaces the old 25-watt halogen lamps with 3 watts. So if you are looking for an energy-efficient and environmentally friendly spot, the Burgos recessed spot is the right one.

An LED transformer is supplied as standard with the stylish Burgos recessed spot. It converts the incoming 230 volts to a safe low voltage. You must mount the transformer on the power cable in the ceiling and then click the Burgos spotlight onto the transformer.

To control the spotlights, there are several ways available. Below you will find all available options:

- Atlas LED rotary dimmer
- Novex LED push dimmer
- Moon remote control
- App (free access when purchasing a wifi LED receiver)

The hole saw (size 35 mm) is perfect for making holes in which this spotlight fits exactly. You can find these under the heading accessories and then hole saws.

Tip: When mounting this spot, disconnect the power to be sure.
