

Cree LED ground light Elvas | warm white | 3 watt | round

Product Images

Short Description

The Cree LED ground light Elvas is suitable for illuminating a shrub, tree or object between 2 and 5 metres in height. You can also use this ground light to illuminate a wall. The ground light consumes 3 watts and works on 230 volts.

Description

Do you have a tree, shrub or object of 2, 3, 4 or 5 metres in height? Then this energy-efficient Elvas ground light that uses 3 watts is highly recommended. With an IP value of 67, this ground light is weather-resistant and ideal for outdoor use. The Elvas ground light is made of stainless steel and the housing of this light even has a notch where you can put the cable through. In this way, the cable is not crushed to the ground. The cable to the ground light is 1.5 metres long and has three wires. With its warm-white light beam (2700k), the Elvas light creates a cosy and atmospheric appearance. The lighting angle of this ground light is 30°.

The 3-wire cable attached to the Elvas ground light must be connected directly to the 230-volt ground cable. You can use our waterproof cable connectors to attach the cable of the Elvas ground light to the 230-volt cable. These are not supplied as standard and must therefore be ordered separately via our webshop.

To control the ground spotlight, there are several options available. For example, you can choose a twilight switch or motion detector. There is also the option of using the Moon or Novex remote control, or the Hamulight app. To make use of these options, you need to purchase the wifi garden LED receiver in addition to the relevant item. When you purchase the wifi garden LED receiver, you get free access to the app.

Tip: Create a lighting plan for your garden to create a beautiful overall picture.

The Cree LED ground light Elvas comes with 5 years of warranty. More information and specifications about this product can be found in the product specifications. Would you like to speak to one of our LED specialists? That is possible! Call, chat or mail us.
