

## Cree LED ground light Santana | warm white | 5 watt | round

### Product Images

## Short Description

---

The Cree LED ground light Santana is very suitable to illuminate a shrub, a tree or an object between 5 and 7 metres high. It is also possible to use this ground light to illuminate a facade. The ground light has a round design, consumes 5 watts and works on 230 volts.

## Description

---

Do you have a tree, shrub or object of 3 metres in height? Then this energy-efficient Santana ground light with a consumption of 3 watts is highly recommended. With an IP value of 67, this ground light is fully weatherproof and ideal for outdoor use. The Santana ground light is made of stainless steel and the housing of this light even has a notch where you can put the cable through. In this way, the cable is not crushed to the ground. The cable to the light is 1.5 metres long and has three wires. With its warm-white light beam (2700k), the Santana light creates a cosy and atmospheric appearance. The lighting angle of this ground light is 30°.

The 3-wire cable attached to the Santana ground light must be connected directly to the 230-volt ground cable. You can use our waterproof cable connectors to attach the cable of the Santana ground light to the 230-volt cable. These are not supplied as standard and must be ordered separately via our webshop.

You can operate the ground spotlight in various ways. For instance, you can connect the ground spots to a twilight switch or motion detector. It is also possible to use the remote control Moon or Novex, or the Hamulight app. To make use of these options, you need to purchase the wifi garden LED receiver in addition to the relevant article. When you purchase the wifi garden LED receiver, you get free access to the app.

Tip: We recommend laying 230-volt cables 60 cm underground, so they are safely concealed.

The Cree LED Santana spotlight comes with a 5-year warranty. More information and specifications about this product can be found in the product specifications. Would you like to speak to one of our LED specialists? That is possible! Call, chat or email us.

## Additional Information

Article number	L2088
EAN code	8721122621134
Brand	Hamulight
Suitable for	Outside
Light color	Warm white (2700K)
Input voltage	230V AC
LED chip	Cree
Consumption	5 watt
Dimmable	No
Lumen per LED (including lens)	500 lm
Color Rendering Index (CRI)	>82
Light angle	23 Degrees
Diameter	78 mm
Height	130 mm
Hole size	70 mm
Cabling per LED	100 cm
Transformer required?	No
Material	Stainless steel
Housing color	Nickel
IP value	IP67
IK value	IK08
Quality mark	CE, Rohs
Warranty	5 years
Energy label old	A++
Energy label new	F
