

LED rotary dimmer Atlas | white

Product Images

Short Description

This phase-cut LED dimmer in white is suitable for dimming your LED spots. You must connect at least 10 and a maximum of 350 watts to this LED dimmer. This dimmer works on 230 volts.

Description

Do you want to be energy efficient and dim your LED lighting with a LED rotary dimmer? Then this one is for you. You cannot dim LED lights with a 'normal' dimmer, but only with a LED dimmer. On this LED dimmer, you need at least 10 watts and you can connect up to 350 watts of lighting.

On the back of this dimmer is a wheel, with which you can set the minimum dimming level yourself (10%-100%)! The dimmer comes complete with a cap.

Please note: this is a phase-cut an LED dimmer

Additional Information

Article number	L2096
EAN code	7435124531551
Brand	Hamulight
Suitable for	Inside
Length	83 mm
Width	83 mm
Height	42 mm
Input voltage	230V AC
