

LED transformer | connector 12-hole | remote control | parallel | 36 watt

Product Images

Short Description

This Hamulight LED transformer is suitable for porch AB sets with 8, 10, or 12 LED spots. The transformer has a 12-hole parallel connector.

Description

Are you looking for a transformer for your porch AB set of 8, 10, or 12 LED spots? Then this is the transformer you must have! You connect this transformer directly to 230 volts. The transformer converts 230 volts into a safe low voltage of 3.6 volts. The parallel connector ensures that if a spotlight fails, only that spotlight fails and the rest of the spotlights continue to burn as normal.

Please note: the connector of this transformer must be filled with at least 4 LED spots.
