

Steinel twilight switch | 3000 | black | 1000 watts

Product Images

Short Description

This 3000 twilight switch is suitable for combining with our 230-volt garden lights. The twilight switch reacts to light intensity and has a night savings mode.

Description

The twilight switch 3000 switches the light automatically ON when darkness falls and automatically OFF again in the morning when it gets light. The twilight switch has several functions. With the night savings function, you can use a rotary knob to program a fixed time when no light is needed at night. The connected lighting is then automatically switched off at the set time and on again in the morning. This saves extra energy.

This twilight switch has an operating voltage of 230 Volt and can be used for our 230 Volt garden lighting.

Additional Information

Article number	L2324
EAN code	7435841449450
