

Cree LED recessed spotlight Valencia bas | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set of Cree LED recessed spotlights from the Valencia series is specially designed for verandas. The stylish design ensures that the recessed spots are at home on every veranda. The spots are available in sets of 4, 6, 8, 10 or 12 dimmable LED recessed spotlights (3 watts) with a serie LED transformer and connector. This set is suitable for wooden and aluminium verandas.

Description

The Cree Valencia LED recessed spotlights have an IP value of 65 (IP-65), which means that they are fully resistant to dust and splash/spray water. The spotlights shine a lovely warm-white light colour (2700k) and create a pleasant and cosy atmosphere on your veranda. Each spotlight has a 5-metre cable. If this is not enough, there is always the option of ordering an extension lead. The cables of the spotlights are double-insulated, which means that the cable is well-protected against breakage. The spots have a small built-in dimension (30 mm) and a suitable height (37 mm) and diameter (36 mm), so they fit in (almost) any porch. The Valencia BAS set is suitable for aluminium and wooden verandas.

You can operate the spotlights in these sets with the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. So don't forget to order one of these control options. Would you like to control the spotlights with the Novex, Moon and/or Hamulight app? Then order the wifi LED receiver as well. You will receive free access to the app when you purchase the wifi LED receiver.

It is also possible to make this set smarter by connecting the spotlights to a motion detector. This is ideal for in a carport.

Are you convinced of this Cree LED downlight Valencia BAS set and do you want to place an order? Then also take a look at the accessories. A hole saw (size 30 mm) can help you make holes in the beams of your veranda and an extension cord offers help if you have too little wiring. And do you not know where to put the transformer? Then order a wall box as well!

Tip: We would like to advise you that the spots need 2 mm clearance at the back.

The recessed spotlights in this set are covered by a 3-year guarantee. Further details can be found under product specifications. Do you need more than 12 spots on your veranda? Ask our LED specialists for advice on how best to go about this.

Additional Information

Article number	LIBS1010
EAN code	7435124515537
