

## Cree LED surface mounted spotlight veranda Gomera ab | warm white | set of 6, 8, 10 or 12 pieces

### Product Images

## Short Description

---

This AB set of Cree LED surface-mounted spotlights from the Gomera series are specially designed for porches. The spots are available in sets of 6, 8, 10 or 12 dimmable LED surface spots of 3 watts, including the corresponding parallel LED transformer with a parallel connector and a Hamulight remote control. This set is suitable for wooden and aluminium porches.

## Description

---

The warm white light colour (2700k) of the Gomera LED spots creates a cosy atmosphere on your veranda. Each surface-mounted spotlight has a cable of 5 metres. These cables are single-insulated. The advantage of this is that the cables remain thin, but are well protected. Because the cables are thin, you only need to drill a small hole in the beams of the porch for each surface-mounted spotlight, so the sturdiness of the beams is not affected. The surface spots have a diameter of 33 mm and a height of 21 mm.

You can switch the spots on and off with the Hamulight remote control. The remote control is supplied with batteries and wall brackets. The included transformer ensures that the incoming 230 V is converted to low voltage and the surface spots have to be plugged into the parallel connector.

Don't know yet how you are going to hide the transformer and connector? Then a wall box is a nice and safe way to do this. And is the 5-metre cable not long enough? You can extend the cables with one or more extension cables. All these accessories are available on our webshop.

Tip: make sure that after assembling this set, you can still easily reach the transformer and connector.

You receive a 3-year guarantee on the spotlights in this set. Look under the heading specifications or do you have any other questions? Contact our LED specialists for advice. Need more than 12 surface spots for your porch? That's possible! Ask our LED specialists for advice. They can advise you on how best to go about this.

## Additional Information

Article number	LOV1020-06
EAN code	7435124512581
Brand	Hamulight
Spot color	Aluminium
Suitable for	Inside & outside
Light color	Warm white (2700K)
Consumption	3 watt
Input voltage	230V AC
LED chip	Cree
Dimmable	Yes
Lumen per LED (including lens)	155 lm
Color Rendering Index (CRI)	>92
Light angle	30 Degrees
Tiltable	No
Cabling per LED	500 cm
Transformer required?	Yes (standard included)
Dimensions transformer	205 x 50 x 28 mm
Remote control range	10 meter
Circuit	Parallel
Diameter	33 mm
Height	21 mm
Material	Aluminium
IP value	Spots: IP44, Trafo: IP44
Quality mark	CE, Rohs
Warranty	Spots: 3 years, Trafo: 2 years
Energy label old	A+
Energy label new	G
