

**Pals ab | recessed spotlight | round silver | warm white | dimmable | set of 6, 8, 10 or 12 pieces | OutdoorCore+**

## Product Images

## Short Description

---

This AB set of Cree LED recessed spotlights from the Pals series is specially designed for verandas. The recessed spots ensure that verandas are beautifully lit. The spots are available in sets of 6, 8, 10 or 12 dimmable built-in spots (3 watts). A parallel transformer with a connector and a Hamulight remote control are included in this set. This set is extremely suitable for wooden porches, but can also be used for aluminium porches.

## Description

---

The recessed spots from this Pals AB set have a recessed dimension of 30 mm, a height of 30 mm and a diameter of 38 mm. With these dimensions, the recessed spots would fit well in most conservatories. These spots have a warm white light colour (2700k) and will therefore create a warm atmosphere on your veranda. Each spotlight has a 5-metre single-insulated cable. The advantage of a single-insulated cable is that the cable is thinner, so you only need to drill small holes in the beams of your porch, through which the cable fits. This also ensures that your porch retains its firmness.

The Hamulight remote control is included in this set. With this remote control you can switch the spots on and off and dim them. The set also includes a remote control holder and mounting materials. The batteries for the remote control are also included. Besides the remote control, you also receive a transformer and a parallel connector. The included transformer converts 230 V into low voltage. The recessed spotlights have to be plugged into the parallel connector.

If you want to conceal the transformer and the connector safely, you can order a wall box. Holes for the recessed spots should be made with a hole saw (size 30 mm). And if 5 metres of cable per spotlight is not enough, you can extend it with an extension cord. All these accessories must be ordered separately.

Tip: Make sure you hide the transformer and connector safely and that you can always access them.

The pals recessed spotlights come with a 3-year warranty. You can find more product details under product specifications. And would you like to light up your veranda with more than 12 recessed spotlights? That is possible! Because you can operate 2 transformers with 1 remote control.
