

Cree LED recessed spotlight veranda Marbella ab | warm white | set of 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set of Cree LED recessed spotlights from the Marbella series is suitable for aluminium and wooden porches. This stylish set is available in sets of 6, 8, 10 or 12 dimmable LED recessed spotlights (3 watts), including the accompanying parallel LED transformer with a connector.

Description

The Marbella LED recessed spotlights have an IP value of 44 (IP44). This means that they are well protected against dust and splash water. The warm white light (2700k) that the spotlights emit creates a cosy and pleasant atmosphere on your porch. Each spotlight comes with a 5-metre cable. This allows you to easily lay the wiring of the spots to the transformer with the connector and then plug the spotlight into the connector. The cabling of the spotlights is double insulated, thereby reducing the risk of cable breakage. The recessed size (22 mm), height (30 mm) and diameter (28 mm) of Marbella spots ensure that the spots can be placed on almost every porch.

The Marbella BAS set can be expanded with various operating modes. It is possible to control the spots with a LED rotary dimmer, with our Hamulight app or with a Nice remote control. For all control methods, you need to order something separately. You have to order the LED rotary dimmer separately and for the use of the Hamulight app, you have to order the Hamulight app receiver separately. The app can be downloaded free of charge for iOS and Android, but you will need the Hamulight app receiver for the app to work.

It is also possible to control the spots of the Marbella BAS set with a Nice remote control. To let the remote control communicate with the recessed spots you need to order the Nice LED receiver separately from our webshop.

Are you interested in this set? Then don't forget to have a look at the accessories of this set. A hole saw (size 22 mm) can help you mount the spotlights and if there is not enough cabling, an extension cord will come in handy. Would you like to hide the transformer and connector nicely and be watertight? Then our wall boxes are highly recommended!

Tip: allow 2 mm clearance at the back of the recessed spots.

The Marbella LED recessed spotlights come with a 3-year guarantee. You can read more product information under the heading product specifications. Do you need more than 12 recessed spots on your porch? Please feel free to contact us and we will advise you on how best to do this.
