

Cree LED recessed spotlight Pals bas | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set of Cree LED recessed spotlights from the Pals series is a real winner. This Pals set consists of 4, 6, 8, 10 or 12 dimmable LED recessed spotlights (3 watts) including a serie LED transformer and connector. This set is extremely suitable for wooden porches, but you can also use it for aluminium porches.

Description

The Pals LED recessed spotlights have a low height (30 mm), small built-in dimension (30 mm) and suitable diameter (38 mm). These dimensions ensure that the Pals spotlights fit into almost any veranda. The spots are equipped with a single-insulated cable of 5 metres in length. The advantage of this is that the wiring is thinner so that you do not have to drill large holes in the beams of your veranda. This way your veranda retains its firmness. The thinner cables ensure that this set is very suitable for wooden verandas. But you can also use it in aluminium porches.

You can operate the Pals recessed spotlights in these sets in various ways, namely via the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. Make sure you order at least one of these control options to operate the spotlights. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, also add the wifi LED receiver to your order to get free access to the app.

Making this set smarter? That's possible! You can link this set to a twilight switch or motion detector. Handy for in a carport. Both are available on our webshop.

Have you not yet found a safe place to put the transformer? Then our wall boxes are just the thing for you! The 30 mm hole saw can also help you install the recessed spots.

Tip: make sure you always have easy access to your transformer and connector.

The Pals recessed spots come with a 3-year guarantee. You can read more about this set under the heading product specifications. Do you need more than 12 spots on your veranda? Ask our LED specialists for advice on how best to go about this.

Additional Information

Article number	L2230
