

## Cree LED recessed spotlight veranda Pals black ab | warm white | set of 6, 8, 10 or 12 pieces

### Product Images

## Short Description

---

This AB set of Cree LED recessed spotlights from the Pals black series consists of 6, 8, 10 or 12 dimmable LED downlights (3 watts) in the colour black. A parallel transformer with a connector and a Hamulight remote control are also included in this set. This set is ideal for wooden porches but can also be used for aluminium porches.

## Description

---

The stylish black recessed spots from this AB set have a diameter of 38 mm, a height of 30 mm and a build-in dimension of 30 mm. Each spotlight has a 5-metre single-insulated cable. The cable is thin and well-protected against damage. The advantage of a thin cable is that you only need to drill small holes in the beam of your porch, through which the cable fits. This way, your porch retains its firmness. The warm white (2700k) light colour and the black colour of the recessed spotlights ensure that a pleasant and cosy atmosphere is created on your porch.

With the Hamulight remote control, you can turn the recessed spots on and off and dim them. Batteries for the remote control and a remote control holder (including mounting material) are supplied as standard. In addition to the remote control, you will also receive a LED transformer with a parallel connector. You plug the recessed spotlights into the parallel connector and the transformer ensures that 230 volts are converted into low voltage.

There are several handy accessories that you can use with this set. For example, you can order a wall box to safely conceal the transformer and the connector. A hole saw (size 35 mm) to make the holes for the recessed spots is also available on our webshop. Is the cable of 5 metres per spotlight not enough for you? Then you can order one or more extension cords on our webshop.

Tip: the recessed spots need 2 mm clearance at the back in the beams of your porch.

You enjoy a 3-year guarantee on the spots in this set. Do you need more than 12 recessed spotlights to light your porch? Ask our LED specialists for advice on how best to go about this.

## Additional Information

---

Article number	L2208
EAN code	7435124546517
Brand	Hamulight
LED chip	Cree
Spot color	Black
Suitable for	Inside & outside
Consumption	3 watt
Input voltage	230V AC
Light color	Warm white (2700K)
