

Cree LED recessed spotlight Pals black bas | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set of dimmable Cree LED recessed spotlights from the Pals series is specially designed for porches and canopies. This set consists of 4, 6, 8, 10, or 12 black LED built-in spots of 3 watts, including a matching serie LED transformer with a connector. This set is extremely suitable for wooden porches, but can also be used for aluminium porches.

Description

The black Pals LED recessed spotlights have a low height (30 mm), small built-in dimension (30 mm) and suitable diameter (38 mm). With these dimensions, it is possible to install these Pals spots on almost every porch. The recessed spots all have a 5-meter long single-insulated cable. The advantage is that the cables are thinner, so there is no need to drill large holes in the beams of your veranda. This will also not affect the solidity of your porch. Because of the thinner cables, this set is extremely suitable for wooden verandas, but also aluminium porches.

You can operate the Pals recessed spotlights from this set in various ways, namely via the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. Make sure you order at least one of these control options to operate the spotlights. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, also add the wifi LED receiver to your order to get free access to the app.

If you want to make the set even smarter, you can connect the spotlights to a motion detector. This is especially useful if you use this set in a carport.

Don't have a place to hide the transformer? Then consider our wall box. This allows you to conceal the transformer and connector safely. And are you going to assemble the Pals set yourself? Then a hole saw (size 30 mm) can help you make perfectly sized holes.

Tip: make sure the recessed spots have 2 mm of play at the back.

There is a 3-year guarantee on the recessed spots. Would you like more information about this set? Then take a look at all the product specifications of this set and watch the product film. Do you need more than 12 spots on your veranda? Ask our LED specialists for advice on how best to go about this.

Additional Information

Article number	L2227
EAN code	7435124558527
Brand	Hamulight
