

Cree LED recessed spotlight Toledo black bas | tiltable | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set with black Cree LED recessed spotlights from the Toledo series is an enrichment for your porch. The Toledo black BAS set is available with 4, 6, 8, 10 or 12 black LED porch of 3 watts with a series LED transformer and connector. The recessed spots are tiltable and dimmable. This set is suitable for aluminium and wooden porches.

Description

The Cree LED recessed spotlights Toledo are dimmable and tiltable. The warm white (2700k) light beam can therefore be directed to a specific spot on your porch. All recessed spots are equipped with a 5-meter-cable. These cables are double insulated, so the chance of damage and cable breakage is small. The recessed lights have a build-in dimension of 42 mm, a height of 36 mm and a diameter of 50 mm. The black recessed lights have a stylish look that suits every veranda.

The LED recessed spotlights in this set can be controlled in several ways, including the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. It is important to order at least one of these control options to control the spotlights. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, it is also necessary to purchase the wifi LED receiver. When you purchase the wifi LED receiver, you get free access to the app.

To make the set even smarter, you can connect the spotlights to a motion detector. This is particularly useful for a carport or similar area.

Would you like to make this set smarter? That's possible! You can connect this set to a twilight switch or motion detector. Both are available on our webshop.

Do you already know how you are going to hide the transformer and connector? With a wall box, you can safely conceal the transformer. And do you already know how to make the holes in the beams to accommodate the spots? This can be done with a hole saw (size 42 mm). Are 5 meters of cable per recessed spotlight not enough? Then order one or more extension cables.

Tip: make sure you can still easily access your transformer and connector.

The Toledo BAS set comes with a 3-year guarantee. More information about this set can be found under product specifications. Also, watch the product video for this set. Are 12 recessed spots not enough on your porch? Then feel free to contact us and we will advise you on how best to go about it.

Additional Information

Article number	L2240
EAN code	7435124555588
