

Cree LED recessed spotlight Aragon bas | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

Short Description

This BAS set of Cree LED recessed spotlights from the Aragon series consists of 4, 6, 8, 10 or 12 dimmable LED recessed spotlights of 3 watts, including the corresponding series LED transformer with a connector. This set is suitable for wooden and aluminium porches.

Description

The LED recessed spotlights of the Aragon BAS set are small and stylish. The small recessed size (28 mm), low height (20 mm) and suitable diameter (33 mm) of the Aragon spots ensure that the spots fit on almost every veranda. A cable of 5 metres in length is attached to each recessed spot. This cable is double insulated so that the chance of cable breakage or damage is reduced. With their warm-white light colour (2700k), the spots provide a pleasant and cosy atmosphere on your porch.

There are several ways to control the recessed spotlights in the Aragon BAS set, including the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. It is important to order one of these control options to operate the spotlights. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, you also need to order the wifi LED receiver. When you buy the wifi LED receiver, you get free access to the app.

You create a smart set by connecting the spotlights to a motion detector. This is especially handy in a carport, for example.

Are you interested in this Aragon BAS set? Then also check out the accessories of this set. A hole saw (28 mm) will help you mount the spotlights and an extension lead will come in handy if there is not enough cabling. Would you like to hide the transformer nicely and be watertight? Then choose a wall box.

Tip: allow 2 mm clearance on the back of the recessed spotlights.

Aragon LED recessed spotlights come with a 3-year guarantee. You can read more product information under the heading product specifications. Need advice from our LED specialists? Then feel free to contact us. Are 12 recessed spots not enough on your veranda? Then feel free to contact us and we will advise you on how best to go about it.

Additional Information

Article number	L2233
