

## Cree LED recessed spotlight Marbella bas | warm white | set of 4, 6, 8, 10 or 12 pieces

### Product Images

## Short Description

---

This BAS set of stylish Cree LED recessed spotlights from the Marbella series consists of 4, 6, 8, 10 or 12 dimmable LED recessed spotlights (3 watts), including a serie LED transformer with a serie connector. This set is suitable for use in wooden and aluminium porches.

## Description

---

The LED recessed spotlights of the Marbella BAS set have a small built-in dimension (22 mm), low height (30 mm) and suitable diameter (28 mm). The Marbella is therefore a small spotlight that fits into almost any porch. Each recessed spotlight in this set comes with a 5-metre cable. This cable is double-insulated, which reduces the risk of cable breakage or damage. With their beautiful warm-white light colour (2700k), the spots create a pleasant and cosy atmosphere on your porch.

The Marbella recessed spotlights in these sets can be operated via the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. Make sure you order at least one of these control options. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, also add the wifi LED receiver to your order to access the app.

Want to make the set smart? Then connect the spotlights to a motion detector. This is especially useful for a carport.

Is the Marbella BAS set something for you? Then also check out the accessories of this set. With a wall box, you can hide the transformer nicely and safely and with a hole saw (size 22 mm) you can make holes in the beams of your porch in the perfect size. Do you have too little cabling per spotlight? Then you can extend it with an extension cord.

Tip: make sure you always have easy access to your transformer and connector.

You benefit from a 3-year warranty on the Marbella LED recessed spotlights. Do you have a question or need advice? Ask our LED specialists, but also check out the FAQ of this set. More product information can also be found under product specifications. Are 12 recessed spots not enough on your veranda? Then feel free to contact us and we will advise you on how best to go about it.

## Additional Information

Article number	L2236
