

Cree LED surface mounted spotlight Gomera bas | warm white | set of 4, 6, 8, 10 or 12 pieces

Product Images

## Short Description

---

This BAS set of Cree LED surface-mounted spotlights from the Gomera series are specially designed for porches. The spots are available in sets of 4, 6, 8, 10 or 12 dimmable LED surface-mounted spotlights of 3 watts with a series LED transformer and connector. This set is suitable for wooden and aluminium porches.

## Description

---

The Gomera LED surface-mounted spotlights shine a nice warm white light colour (2700k) and create a pleasant and cosy atmosphere on your porch. Each spotlight comes with 5 metres of cable. If this is not enough, there is always the possibility of ordering an extension cord. The cables of the surface spots are single-insulated. The advantage of this is that the cables remain thin, but are well protected. Because the cables are thin, you only need to drill small holes in the beams of your porch, so the solidity of the beams is not affected. The spots have a height of 21 mm and a diameter of 33 mm.

You can operate the surface-mounted spotlights in these sets in various ways, including with the Atlas LED rotary dimmer, the Novex push dimmer, the Moon remote control and/or the Hamulight app. Make sure you order at least one of these control options to operate the spotlights. If you want to control the spotlights via the Novex, Moon and/or Hamulight app, also add the wifi LED receiver to your order to get free access to the app.

It is also possible to combine this set with a twilight switch or motion detector. Ideal for in a carport. Both are also available on the webshop.

If you want to use this set for your porch, we recommend that you take a look at the accessories of this set. With an extension cable, you can extend the 5-metre cable per spotlight. And with a waterproof wall box, you can safely hide the transformer and connector.

Tip: make sure you always have access to the transformer and connector.

You receive a 3-year warranty on the surface-mounted spotlights from this BAS set. You can find more product details in the product specifications. Do you need more than 12 surface spots on your porch? That is of course possible. Ask our LED specialists for advice. They can advise you on how best to go about this.

## Additional Information

Article number	L2218
EAN code	7435830856801
