

Cree LED ground light Mira | warm white | 1 watt | round

Product Images

Short Description

The Cree LED ground light Mira is suitable for illuminating a shrub, tree or object up to 1 meter high. The spot uses 1 watt and operates on 230 volts.

Description

Do you have a tree, shrub or object up to 1 meter high? Then this energy-efficient Mira ground spot using 1 watt is highly recommended. With an IP rating of 67 (IP-67), this ground spot is weatherproof and ideal for outdoor use. The Mira ground spot is made of stainless steel (RVS) and the housing of this spotlight even has a notch through which you can lay the cable. This prevents the cable from being crushed in the ground. The cable on the ground spot is 1 meter long and is 3-core. With its warm-white light beam (2700k), the Mira spotlight creates a cosy and atmospheric appearance. The light angle of this ground spot is 30°.

The 3-core cable attached to the Mira ground spot needs to be connected directly to the 230-volt ground cable. Our waterproof cable connectors can be used to attach the Mira ground spot to the 230-volt cable. These are not supplied as standard and should be ordered separately from our webshop.

There are several ways to control the Mira. You can choose to connect the ground spots to a twilight switch or motion detector. Other options include operation with the Moon or Novex remote control and/or the Hamulight app. To use the Moon, Novex and/or app, you need to purchase the wifi garden LED receiver in addition to the relevant item. When you purchase the wifi garden LED receiver, you get free access to the app.

Tip: Making a lighting plan helps you get a good idea of your garden and what you can and want to do

The Cree LED ground light Mira comes with a 5-year warranty. More information and specifications about this product can be found in the product specifications. Would you like to speak to one of our LED specialists? You can! Call, chat or e-mail us.

Additional Information

Article number	L2347
EAN code	8721122621097
Brand	Hamulight
Suitable for	Outside
Light color	Warm white (2700K)
Input voltage	230V AC
LED chip	Cree
Consumption	1 watt
Dimmable	No
Lumen per LED (including lens)	100 lm
Light angle	30 Degrees
Diameter	50 mm
Height	95 mm
Hole size	43 mm
Cabling per LED	100 cm
Transformer required?	No
Material	Stainless steel
Housing color	Nickel
IP value	IP67
IK value	IK07
Quality mark	CE, Rohs
Warranty	3 years
