

Cree LED spike light Ponte | warm white | 1 watt | tiltable

Product Images

Short Description

The Cree LED spike light Ponte uses 1 watt and is very suitable for lighting objects, trees and shrubs up to 3 metres high. You can also beautifully light a facade up to 3 metres high and ponds with the Ponte pin spot. The operating voltage of this spot is 230 volts.

Description

Are you going to illuminate an object, tree or shrub up to 3 metres high? Then Ponte is a good choice. You can also easily illuminate a pond with this Ponte spotlight. Be careful not to mount it in the pond! With its energy-efficient consumption of 1 watt and warm-white light beam (2700k), the Ponte spotlight creates a cosy atmosphere in your garden. At the bottom of the spotlight is a sharp pin. This sharp pin can easily be inserted into the ground to (re)place the spotlight. The spike light is tiltable and you can determine how high the light beam shines. The light beam of the Ponte spotlight has a nice warm white colour (2700k). The Ponte spike light is powder-coated and has an IP value of 65 (IP-65). This ensures that the spotlight is completely weatherproof.

The spotlight comes with a 3-core cable of 1 metre length. With our waterproof cable connectors, you can then connect the spotlight to a 230-volt power cable or connect it to other 230-volt garden lighting. These cable connectors are not supplied as standard, but you can simply order them from our webshop.

You can operate our spike lights in various ways. The options are listed below:

- Motion detector
- Twilight switch
- Moon remote control (wifi garden LED receiver required)
- Push dimmer / remote control Novex (wifi garden LED receiver required)
- App (wifi garden LED receiver required)

You will receive free access to the app when you purchase the wifi garden LED receiver. To use the Moon and Novex, you need to add the wifi LED garden receiver to your shopping basket in addition to the respective article.

Tip: our advice is to lay 230-volt cables 60 cm underground, so it is safe and nicely concealed.

There is a 5-year warranty on the Cree LED spike light Ponte. Read more product information in the product specifications. Do you have a question? Ask our LED specialists.

Additional Information

Article number	L2348
EAN code	8721122621158
Brand	Hamulight
Suitable for	Outside
Light color	Warm white (2700K)
Input voltage	230V AC
LED chip	Cree
Consumption	1 watt
Dimmable	No
Lumen per LED (including lens)	100 lm
Light angle	30 Degrees
Diameter	36 mm
Width	68 mm
Height	180 mm
Cabling per LED	100 cm
Transformer required?	No
Material	Aluminium
Housing color	Black
IP value	IP65
Quality mark	CE, Rohs
Warranty	3 years
