

Coblux LED recessed spotlight | warm white | 4 watt | dimmable | different colours

Product Images

Short Description

The Coblux LED recessed spotlight shines with warm white light (2700k) and consumes 4 watts. The spot is dimmable and you can tilt it to the desired position.

Description

With the stylish Coblux LED recessed spotlight, you will never have to buy a new light fitting again. The Coblux spot uses a GU-10 fitting, making the spot replaceable without having to replace the light fitting.

The Coblux recessed spot is a large recessed spot. You should therefore consider that the Coblux recessed spot has a high mounting dimension and is, therefore, less suitable for lower ceilings. Furthermore, the Coblux recessed spot is dimmable and you can tilt the spot in the desired direction. These functionalities give you control over the atmosphere in your home.

The Coblux recessed spotlight is an energy-efficient spotlight with a consumption of 4 watts.

The GU-10 fitting that is supplied as standard can be connected directly to 230 volts. You can then screw the spot into the fitting and mount the luminaire.

You have several options for controlling the spots. All options are listed below:

- LED rotary dimmer Atlas
- LED push dimmer Novex
- Remote control Moon
- App (with purchase of wifi LED receiver free access)

Tip: Make sure you disconnect the power before you start assembling the Coblux recessed spotlight.

When ordering this product, you will enjoy a 3-year guarantee. When ordering this product, it may also be useful to view the accessories for this product. For example, it may be useful to order a rotary dimmer or a hole saw.
