

Coblux LED recessed spotlight | square | warm white | 4 watt | dimmable | different colours

Product Images

Short Description

The Coblux LED recessed spotlight square is a dimmable spot with a consumption of 4 watts. The spot is tiltable and shines a beautiful warm-white light color (2700k).

Description

This stylish Coblux LED recessed spot has a square fixture that you do not need to replace. The Coblux recessed spotlight is supplied with a GU10 fitting as standard. The advantage of this is that you can easily replace the spot and you no longer need to replace the luminaire.

The Coblux spotlight is highly recommended and this is confirmed once again by the fact that it is both dimmable and tiltable. With the energy-efficient consumption of 4 watts, the spot is also environmentally friendly.

The GU10 fitting needs to be connected directly to the 230-volt power cable. You can then screw the spot into the fitting and mount the armature. Make sure you disconnect the power before you start mounting.

You have several options for controlling the spots. All options are listed below:

- LED rotary dimmer Atlas
- LED push dimmer Novex
- Remote control Moon
- App (with purchase of wifi LED receiver free access)

Tip: the Coblux spotlight is a large spotlight. You should therefore check whether there is enough space between the original and the lowered ceiling.

The Coblux LED spotlight comes with a 3-year warranty. More information about this recessed spot can be found under the heading product specifications. Have you still not found the information you were looking for? Then please do not hesitate to contact us.
