

Hamulight wifi LED receiver | 150 watt

Product Images

Short Description

This Hamulight 150-watt wifi LED receiver is suitable for combining with our veranda BAS sets and recessed spotlights. This receiver allows you to control the lighting with the Moon remote control, with the Novex push dimmer and with our Hamulight app. You need to add the Moon remote control and Novex push dimmer to your shopping basket separately. You will receive the app for free with the purchase of this receiver.

Description

Do you have one of our recessed spotlights or a veranda BAS set? Then this receiver allows you to control the lights with the Moon remote control, Novex push dimmer or with our Hamulight app.

You can use the Hamulight app for free when you buy this receiver, so you don't need to buy anything else. You do need to order the Moon remote control and Novex push dimmer separately from our webshop.
