

Remote control Moon | 9-channel | OutdoorCore+ & OutdoorGlow+

Product Images

Short Description

The Moon 9-channel remote control is perfect for combining with our veranda BAS sets, garden lighting, LED strips and recessed spotlights. To use this remote control, you need to purchase one of our wifi LED receivers.

Description

With this 9-channel Moon remote control, you can operate your Hamulight lighting. Note: To use this remote control, you need to purchase one of our wifi LED receiver. Which receiver you should have depends on the type of lighting. We have a receiver for garden lighting, one for recessed spotlights and one for LED strips.

If you want to use the Moon remote control for your garden lighting, you should bear in mind that you can only switch the lighting on and off, as the garden lighting itself is not dimmable.
