

Hamulight wifi veranda LED receiver | 240 watt | 24 volt

Product Images

Short Description

This Hamulight wifi veranda LED receiver of 240 watts is suitable for combining with our LED strips and spotlight Parla. This receiver allows you to control the strips/spotlight with the Moon remote control, with the Novex pressure dimmer and with our Hamulight app. You need to add the Moon remote control and Novex pressure dimmer to your shopping basket separately. You will receive the app for free with the purchase of this receiver.

Description

Do you have one of our LED strips or the Parla spotlight? Then this receiver allows you to operate the strips/spotlight with the Moon remote control, with the Novex pressure dimmer and with our Hamulight app.

You can use the Hamulight app for free when you buy this receiver, so you don't need to buy anything else. However, you do need to order the Moon remote control and Novex dimmer separately via our webshop.
