

Strip connector L | Denia | 10 pieces

Product Images

Short Description

This strip connector allows you to angle the LED strips Denia 90 degrees without light and power loss. The strip connectors are supplied with 10 pieces at a time.

Description

Want to make your current Denia LED strip turn the corner? Then this L strip connector is what you need. This strip connector allows you to angle your Denia LED strips 90 degrees. This connector has even more advantages. You can read about them below:

- The LED strips go around the corner in an even line. So there is no light loss in the corners
- The connector transfers the incoming current from one LED strip to the other
- No need to solder the LED strips

The strip connectors are supplied with 10 pieces at a time.
