

**Hamulight wifi garden LED receiver | power cord plug + 3-core | connection cable
| 150 watt | 230 volt**

Product Images

Short Description

This Hamulight wifi 150-watt garden LED receiver is suitable for combining with our 230-volt garden lights. This receiver allows you to switch the lights on and off with the Moon remote control, with the push dimmer Novex and with our Hamulight app. You need to add the Moon remote control and the Novex push dimmer to your shopping basket separately. You will receive the app for free with the purchase of this receiver.

Note: 2 connection cables are included with this receiver. You will receive one with a power plug and the other with a 3-core cable. So you decide which connection you prefer.

Description

Do you have or are you going to light up your garden with Hamulight 230-volt garden lighting? Then this receiver allows you to control (switch on and off) the lighting with the Moon remote control, the Novex push dimmer or with our Hamulight app.

You can use the Hamulight app for free when you buy this receiver, so you don't need to buy anything else. You do need to order the Moon remote control and push dimmer Novex separately from our webshop.

Note: 2 connection cables are included with this receiver. You will receive one with a power plug and the other with a 3-core cable. So you decide which connection you prefer.
