

## Cree LED recessed spotlight Sevilla in | warm white | 3 watt | dimmable

### Product Images

## Short Description

---

The Sevilla LED recessed spot shines with a bright warm white colour (2700k) and has an output of 3 watts. Moreover, this recessed spot is dimmable.

## Description

---

The Sevilla recessed spot is a real winner in your home. With a protection rating of 44 (IP-44), the Seville recessed spot is a suitable recessed spot for any room in your home.

The low height (36mm) of the Sevilla recessed spot ensures that you can mount it in almost any suspended ceiling. The stylish design of the Sevilla recessed spot also ensures that it fits into almost any interior.

The LED transformer, supplied as standard, ensures that incoming current is converted to low voltage. You connect the transformer directly to the power cable in the ceiling and, on the other side, simply click it onto the Sevilla downlight.

You can operate the spotlights in various ways. All the options are listed below:

- LED rotary dimmer Atlas
- LED pressure dimmer Novex
- Moon remote control
- App (free access with purchase of wifi LED receiver)

A hole saw (size 35 mm), which allows you to make perfectly sized holes, is also available on our webshop.

Tip: we recommend taking into account 2mm clearance for the Sevilla spotlight and also for the transformer. This allows the heat to dissipate, which benefits its lifespan.
