

Surface-mount housing | OutdoorPro+

Product Images

## Short Description

---

With this surface-mount housing, you can install your lighting exactly the way you want it. Perfect for spike lights you don't want to place in the ground, but instead mount to a wall, solid surface or veranda.

Think of placing a spike lights on the wall to highlight a tree, facade or artwork. Or use the housing on a patio or other hard surface, without the need to drill into the ground.

The surface-mount housing is easy to install thanks to the included screws, allowing for quick setup.
